TITLE OF ABSTRACT

Koval M.A., PhD, Bobrovsky O.V., PhD,

Gerashchenko I.O., PhD in Public Administration, Nikitiuk A.P.

State University of Information and Communication Technologies

Kyiv, Ukraine

Paragraph 1.25, font size 14, line spacing 1.5, Times New Roman, margins 20 mm, width alignment.

Given the intensity of the development of modern information technologies and information and communication systems (ICS) that ensure the transmission, processing and storage of data, the relevance of protecting information resources is becoming increasingly important...

An example of a picture design

When connecting nodes (groups of nodes) to a specific subnetwork (Fig. 2), they are identified as potentially dangerous for this cluster ...

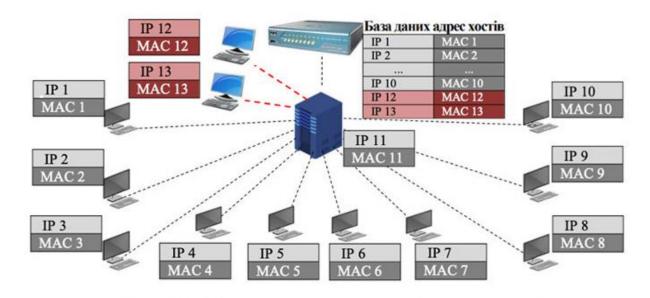

Fig. 2 Connecting a new node to cluster 3

<u>Example of table layout</u>

Table 1 summarises the vulnerabilities that can be exploited by each of the above-mentioned reverse engineering tools.

Table 1

Table name (14 size of font)

12 size of font	text	text	text	text	text
line spacing 1	text	text	text	text	text
text	text	text	text	text	text

<u>An example of a bibliography</u>

Thus, improving the current legislation by taking into account foreign experience will not only define the boundaries of cybercrime in Ukraine and correctly qualify the actions of persons involved in committing cybercrime, but also prevent them in the future.
